

## About this questionnaire

The Health and Social Care Board are working on a project to look at improving Adult Learning Disability Services across Northern Ireland.

Sometimes the Health and Social Care Board's name is shortened to HSCB. The HSCB arranges health and social care services for the population of Northern Ireland. It is our job to make sure everyone in Northern Ireland has good healthcare services.

We are working with five Health and Social Care Trusts, sometimes their names are shortened to HSCT.

It is the job of the 5 HSCTs to provide health and social care services to people in Northern Ireland in hospitals, health centres, residential homes, day centres and other social care facilities.

The HSCB are looking to create a new Regional Model for Adult Learning Disability Services.

This means that no matter where you live you will receive the services you need to help you and your family members or carers.

We have created this questionnaire to find out what you think and what you would like to see change or stay the same in the learning disability services you get.

The questionnaire will look at different areas; we would like to hear your views on how to make your healthcare the best it can be.

## **Remember**

### **This questionnaire is anonymous (private).**

This means we will not ask for your name or any details about where you live. Your information will be kept private.

### **The HSCB make take a quote from my questionnaire.**

This means that the HSCB may use your words you have used to answer a question in a report. No one will know the words that say came from you and your name will be kept private.

### **I can ask for help.**

If I need help filling in the questionnaire I can contact:

### **Thank you!**

Please know your views and thoughts are the most important.

Your answers will inform recommendations on how the HSCB and HSCT design the Regional Model on Adult Learning Disability Services.
